

### All-Inclusive Cat Boarding at Kali's Cottage

To maintain a cozy atmosphere and personalized experience for every pet, only up to three families are booked for each day. I specialize in senior and special-needs pet care so I am comfortable administering any necessary medications. Our cat guests have access to the entire house, including multiple beds and couches to sleep on, sunny seats to look out the windows, clean litter boxes, and a fresh water pet fountain. They are free to explore the house as much or as little as they are comfortable with. Three extra-large cat condos (two single cat 5'x4'x3' condos and one multiple cat 4'x4'x6' double-tall condo) in our home office are available for cats who do not enjoy the company of other cats (we have 5), are used to free-feeding, or prefer not to share a litter box. Updates and photos are provided throughout the stay.

### Frequently Asked Questions

-What do I need to bring for my pet?

We can provide everything that your pet needs except for their food and any medications (if applicable). You may also bring a small comfort item for your pet, such as a stuffed animal or shirt that smells like home. We can provide bowls, treats, toys, beds, blankets, and crates. For cats, we can provide a litter box with generic clumping clay litter. If your cat is particular about their litter box, please supply their preferred litter.

-Will I receive updates/photos while my pet is boarding?

Yes! I send 1-2 updates per day with a written description of what your pet has been up to and/or a photo.

-My cat has never lived with other cats. Will this be a problem?

Most of the cats that stay with us are solo cats who aren't used to being away from home. We start out all new cat guests in one of three extra-large cat condos (two single cat 5'x4'x3' condos and one multiple cat 4'x4'x6' double-tall condo) in our home office so that they can settle in to their new environment at their own pace, without being overwhelmed by too many new areas at once and cats they aren't familiar with (we have 5). If your cat shows interest in exploring more of the house or interacting with our cats, then we can keep the door to the condo open to allow this while also keeping the condo as your cat's "home base" — the place where they can feel comfortable to return to at any time should they hear a loud noise etc. Some cats are more nervous than others and don't end up showing interest in leaving the condo because they prefer to have their own space or are more comfortable in a smaller area. Your cat's comfort level is our top priority so we follow each individual cat's lead on how much or little they would like to explore our home.

### Customer-Submitted Reviews

"Finding Kali's Cottage was such a gift. Our 17 month old kitten Noodle settled right in. Having never left him before my nerves were high, but within a day of our leaving Kali sent us pics & videos of Noodle interacting with her and looking very comfortable. Within a couple days Noodle had made a friend with Taz... another orange kitty. I loved the daily pics and updates. Kali's love and care of her furry guests is so evident. Noodle cried all the way home, already missing his new friend Taz. Not to worry though Noodle will definitely be back to Kali's Cottage in the not to distance future... to Kali's loving care and another sleepover with Taz. The best pet care in Rhode Island!" -- Ron & Lisa L.

"So blessed to have found the perfect place and hostess to care for our fur-boy while we were away. Updated reports and photos everyday. Carefully introduced our "loner" cat to her cats and they became friends! Great videos of their interactions. I'm so proud, happy and jealous, that our cat, Rusty, had such a great vacation! We highly recommend Kali and will happily board at Kali's Cottage Pet Boarding in the future!" -- Rin D.

"I boarded my cat for the first time with Kali and I was thrilled with my experience. She treated my cat like one of her own by playing with him, medicating him, and adjusting to meet his needs. She was a fabulous communicator and reached out with a couple of daily updates and photos. I recommend her highly!" -- Tricia T.

"Kali was great! She took all of the extra steps to make my cat as comfortable as possible and treated her like her own pet. I would absolutely bring my pets here again!" -- Madeleine L.

"Kali was amazing! Our cat Basil really came out of her shell and even became more acquainted with some other animals which she's never done before! We received daily updates and photos as well!" -- Jen R.

"Boarding our cat with Kali was an amazing experience, to put it lightly. From drop-off to pick-up, every detail was addressed. We received text and picture updates daily, which made us all the more comfortable throughout our vacation. I would highly recommend Kali to anyone who needs a top tier cat boarding experience....5 stars!!!!" -- Helena J.

"Kali took such great care of our kitty while we were away for a week! We got daily updates and photos. We weren't sure how he would be around other cats since he hasn't been around any since he was a little kitten, but Kali made sure to introduce him safely and let us know how it was going. We weren't sure Albus would want to come home because we knew he was loving the extra space to explore and having people around during the day. When Albus came home, he adjusted in a way that made us sure he had plenty of attention and affection while we were away. We will definitely book with Kali again for future boarding and would recommend her without hesitation. Thank you, Kali!" -- Tori G.
