

### All-Inclusive Dog Boarding at Kali's Cottage

To maintain a cozy atmosphere and personalized experience for every pet, only up to four dogs are booked for each day. I specialize in the care of senior and special-needs dogs so our home's environment is quiet and calm. I am comfortable administering any necessary medications and our home has no stairs, ideal for dogs with mobility issues.

Our dog guests spend their day living alongside us just as they do in your home, including exploring and playing in our large fenced-in backyard as often as they wish and resting comfortably. All guests are fed their own food twice a day, but special accommodations can be made for pets who require additional meals for medical reasons. For safety reasons and in the event of an emergency, we require that all dog guests be comfortable in a crate. We start out all new dog guests in crates for bedtime. Once we have confirmed that a dog can be safely unsupervised with our cats overnight and without causing damage to our home, dog guests can sleep in a dog bed gated in our kitchen or on the floor of our bedroom. Updates and photos are provided throughout the stay.

### Frequently Asked Questions

-What do I need to bring for my pet?

We can provide everything that your pet needs except for their food and any medications (if applicable). You may also bring a small comfort item for your pet, such as a stuffed animal or shirt that smells like home. We can provide bowls, treats, toys, beds, blankets, and crates.

-Where will my dog sleep?

For safety reasons and in the event of an emergency, we require that all dog guests be comfortable in a crate. We start out all new dog guests in crates for bedtime. Once we have confirmed that your dog can be safely unsupervised with our cats and without causing damage to our home, your dog can sleep in a dog bed gated in our kitchen or on the floor of our bedroom. We cannot allow your dog to free roam our home unsupervised for safety reasons.

-Will I receive updates/photos while my pet is boarding?

Yes! I send 1-2 updates per day with a written description of what your pet has been up to and/or a photo.

-My dog doesn't have any experience with cats. Will this be a problem?

All new dog guests will be temperament-tested with our cats (we have 5) during the free trial night. Often times, even dogs who have never lived with a cat show little or no interest in them. Positive interactions that we watch for are sniffing and walking away, watching them without chasing, and completely ignoring them. We do not tolerate lunging and barking, chasing, or any other aggressive behavior towards our cats.
